

To whom it may concern,

I am pleased to recommend **Viktor Stoimenovski**, who worked with us at **Happierleads** as a JavaScript Developer Intern. During his internship, Viktor consistently demonstrated strong technical ability, dedication, and a willingness to learn quickly.

He contributed to several projects involving JavaScript, React, and modern front-end practices. Viktor showed excellent problem-solving skills, attention to detail, and the ability to adapt to new challenges. He was proactive in asking questions, taking feedback, and improving his work.

Beyond his technical skills, Viktor was a reliable team player, collaborating well with colleagues and bringing a positive, solution-oriented attitude to our work environment.

I am confident that Viktor will be a valuable addition to any development team. He has the skills, motivation, and mindset to grow into a strong software engineer.
